

CONIFARMA- CONSORCIO DE INTEGRACIÓN FARMACEUTICA S.A.

It is a Laboratory of Medicinal Specialties first established as an export consortium which started its activities in 1995.

It was authorized by ANMAT as Laboratory of Medicinal Specialties according to Resolution 223/96 in 1997.

In 2007 it inaugurates its Plant of active pharmaceutical ingredients (API) synthesis where it produces two anesthetics ever since:

REMIFENTANIL and FENTANYL

CONIFARMA has agreements of trade and representation with other Argentine companies,

from Mercosur in Latin America to the Middle East.

CONIFARMA exports drugs and active pharmaceutical ingredients (API) in Latin America to Bolivia, Brazil, Paraguay and Venezuela.

It also exports to India and countries of Asia.

It has a staff of 15 biochemists, pharmacists and engineers.

Dr. Juan Torres is its President and Technical Director.

Its offices and Quality control laboratory are located in 10 Pringles 2° and 4° Floors Capital Federal.

Its production plant is located in Av. Belgrano 3846 (GF) City of Buenos Aires.
